"Technology tools used in education need to be rugged, high quality, have a long lifecycle, be easy to manage and, of course, fit in the budget. Fujitsu ESPRIMO PCs have exceeded all our expectations."

Stefan Peter
Head of Department
Klebensberg Institution Maintenance Center

"We see significant interest in Mini PCs for various use cases from home to office, to commercial use in environments such as retail. The latest function rich ESPRIMO Mini PCs mean extreme portability, flexibility, scalability, and convenience. We've squeezed in masses of functionality, boosted performance, and increased IO despite the tiny casing, making the Mini PC a mainstream choice."

Christian Leutner
Vice President
Head of European Platform Business
Fujitsu

"We needed a flexible computing platform that could integrate with all the various components."

Ozgur Bilgin
Payment Systems Software Development Manager
